学术报告

An introduction to analysis and geometry on singular metric measure spaces

Dr. Changyu GUO（郭常予 博士）

Swiss federal Institute of Technology in Lausanne

（洛桑联邦理工学院）

Time： 14:30-15:30, January 10 (Thursday) 2019

Venue： Room 111, Center for Applied Mathematics

Abstract： In this talk, I will give a simple introduction of the active field Analysis and geometry in metric spaces. In particular, I shall dicuss the well-known geometric parametrization problem of metric spaces and its connections with Platau problem and harmonic maps in the setting of singular metric spaces.
