Traveling Waves of Gray-Scott System: Results and Perspective

Professor Yuanwei Qi
University of Central Florida

Time: 15:30-16:20, Jun 26 (Thursday) , 2018

Venue: Room 111, Center for Applied Mathematics

Abstract: In this talk, I shall report some recent progress on the existence and multiplicity of traveling waves to one of the most important models in Turing Pattern Formation. In addition, I shall pose some open questions which are wide open demanding new ideas and fresh approaches.
