Strong instability of standing waves for nonlinear Schrödinger equations

Prof. Masahito Ohta

Tokyo University of Science

Time：14:30-15:30, March 12 (Tuesday) 2019

Venue：Room 208, Center for Applied Mathematics

Abstract：In this talk, I will give a survey of recent results on relations between orbitally unstable standing wave solutions and finite time blowup solutions of nonlinear Schrödinger equation with a potential.
