## Multiplication Between (Local) Hardy Spaces and Their Dual Spaces

Prof. Dachun Yang (杨大春 教授)

Beijing Normal University (北京师范大学)

**Time:** 9:30-10:30, July 6(Monday), 2020

**Venue:** 腾讯会议 ID:552 181 554

**Abstract:** It is well known that bilinear decompositions of products of (Local) Hardy spaces and their dual spaces play an important role in the study on various problems from analysis. In this talk, we present some recent progresses on such bilinear decompositions of products of (Local) Hardy spaces and their dual spaces. Some open questions are also mentioned in this talk.
